

# HOYA

## 2023 main series line-up

### 👑 Premium Line 👑

#### The strongest coating ever

The coating of the HD nano Mk II has been upgraded to 32 layers with a super scratch resistant feature, so you will never have to worry about filter durability or lens-protection again.

The highest quality filter you can find!

#### Hardened glass for best protection

The HD Mk II series comes with the HD ultra-slim frame, providing additional stability for the glass.

Combined with the use of hardened glass, this series provides an incredible high longevity and

lens-protection, making it a must for professionals who shoot in severe conditions.

### ★ High-End Line ★

#### Bestseller

The Fusion ONE NEXT series is an upgrade to the standard line, coming with an 18 layer, stain-resistant and anti-reflection coating on UV, CIR-PL and protector. Perfect for advanced or semi-advanced photographers!

#### Easiest to clean

The Fusion Antistatic NEXT shares the same features of the Fusion ONE NEXT series, but adds that special antistatic property to the coating. Cleaning the filter has never been so easy!

### Standard Line

#### Great cost-performance

The HOYA UX II is a great cost-performance series. It comes along with a slim frame to minimize the risk of vignetting and a water & oil repellent property, making it a good option for beginners!
